

# *Sleep Like A Billionaire: Why Asking These 5 Questions Before Bed Will Make You RICH* 🌙

**My wealthiest clients all have one thing in common -----** they know where they're going. They don't have all the answers. They don't have all the steps. They don't have all the solutions. What they do have is the destination. Their destination is not some vague, pie-in-the-sky wish for the future. It is clear, specific, and typically causes a stirring of emotions within them. It moves them. It drives them. And on the days they don't take action, it haunts them.

Do you want THAT level of clarity and focus? Use this 5-question formula to sleep like a billionaire. I recommend asking yourself these questions every night, or at the very least, for the next 10 nights. You can print a blank copy for each night.
